Breaking: Rob-E To Release First Single, "(For Children) Christmas Day Begins at Midnight" On 11-11-2022

FOR IMMEDIATE RELEASE Monday, October 24, 2022 at 8 AM

"Christmas Day Begins at Midnight" has a Country / Traditional Christmas sound and seeks to express the extreme level of anticipation that children can experience in the weeks and months leading up to Christmas.

Robert "Rob-E" Perkins composed "Christmas Day Begins at Midnight" over thirty years ago, while still in high school, and he and his sisters have sung it to themselves ever since, but he never sought to actually release any music until social distancing required by the pandemic and advancements in home-studio technology made home-studio music production more widely acceptable.

"Christmas Day Begins at Midnight" is the first released single of a Christmas album planned for a 2023 release.
